

# Index to Volume 52, 1984

## Authors — Auteurs

- Babyov D, Omer H, Menczel J.** Sensorimotor integration therapy for hip fracture and C.V.A. patients. 52(3):133-137
- Barr K, Thorndyke E.** Distal Phalanx Passive Flexor Splint. 52(2):81-82
- Barton L, see MAGILL J.**
- Bell C, Quintal JM.** A life skills program for physically disabled adolescents. 52(5):235-239
- Bremner A, see KREFTING L.**
- Brintnell ESG, see MADILL HM.**
- Brockett M.** Professionalism or Unionism — The Therapists' Dilemma? 52(1):10-15
- Dressler D, Tervo R.** Difficulties encountered with commercial lifts in the pediatric/adolescent population. 52(5):247-249
- Ernest M.** A comprehensive Field Placement Evaluation Instrument: History, Development and Implications. 52(1):25-29
- Federman SM, see MATHIOWETZ V.**
- Ferland F.** La compréhension du handicap par des enfants de 6 à 11 ans. 52(2):67-71
- Fitzsimmons GW, see MADILL HM.**
- Gaipman B, see TIBERIUS R.**
- Hawkes B.** The Certification Examination — How does it Affect You? 52(4):185-187
- Hayashi C, see KRUPA T.**
- Hill CJ, Matthews AM.** The use of support services by careproviders of the aged. 52(3):138-143
- Jameson M.** The Interaction of Culture and Learning: Implications for Occupational Therapy. 52(1):5-9
- Kielhofner G.** The Demise of Diffidence: an Agenda for Occupational Therapy. 52(4):165-171
- Krefting L.** The Use of Conceptual Models in Clinical Practice. 52(4):173-178
- Krefting L, Bremner A.** Work Evaluation: Choosing a Commercial System. 52(1):20-24
- Krupa T, Hayashi C, Murphy M, Thornton J.** Occupational therapy issues in the treatment of the long term mentally ill. 52(3):107-111
- MacKinnon JR.** Current supply and future requirements for occupational therapy manpower in British Columbia. 52(5):251-257
- Macnab D, see MADILL HM.**
- Madill HM, Wood PA.** Occupational therapy graduate program needs: part I — The profession's perspective. 52(2):77-80
- Madill HM, see WOOD PA.**
- Madill HM, Brintnell ESG, Stewin LL, Fitzsimmons GW, Macnab D.** Career Patterns in Two Groups of Alberta Occupational Therapists. 52(4):195-201
- Magill J, Barton L.** Single subject research designs in occupational therapy literature. 52(2):53-58
- Malcolm C, see MCCOLL M.**
- Mathiowetz V, Federman SM, Wiemer DM.** Box and Block Test of Manual Dexterity: Norms for 6-19 year olds. 52(5):241-245
- Matthews AM, see HILL CJ.**
- McColl M, Malcolm C.** Community occupational therapists and volunteers: a survey of utilization and satisfaction. 52(2):59-66
- McQuillen D.** Pet therapy: initiating a program. 52(2):73-76
- Menczel J, see BABYOV D.**
- Murphy K.** Catheter Leg Bag Holder. 52(1):30
- Murphy M, see KRUPA T.**
- Omer H, see BABYOV D.**
- Posthuma BW.** Learning to Touch. 52(4):189-193
- Quintal JM, see BELL C.**
- Robinson DJ.** A shower collar for persons with tracheostomy. 52(3):144-145
- Stan LJ.** The Supervisory skills of rehabilitation managers. 52(3):113-117
- Stewin LL, see MADILL HM.**
- Tervo R, see DRESSLER D.**
- Thorndyke E, see BARR K.**
- Thornton J, see KRUPA T.**
- Tiberius R, Gaipman B.** The Supervisor student Ratio: 1:1 versus 1:2. 52(4):179-183
- Trudel L.** Critères de qualité des interventions dans un milieu de soins prolongés établis par une enquête Delphi. 52(3):119-123
- Wiemer D, see MATHIOWETZ V.**
- Wood PA, Madill HM.** Occupational Therapy graduate program needs: part II — Therapists' and administrators' perspectives in the three prairie provinces. 52(3):125-131
- Wood PA, see MADILL HM.**
- Wright M.** Legal Liability for Occupational Therapists. 52(1):16-19

## Subjects — Sujets

### ADOLESCENCE

- A life skills program for physically disabled adolescents. Bell C, Quintal JM. 52(5):235-239
- Difficulties encountered with commercial lifts in the pediatric/adolescent population. Dressler D, Tervo R. 52(5):247-249
- Box and Block test of manual dexterity: norms for 6-19 year olds. Mathiowetz V, Federman SM, Wiemer DM. 52(5):241-245

### CAREER PATTERNS

- Career patterns in two groups of Alberta occupational therapists. Madill HM, Brintnell ESG, Stewin LL, Fitzsimmons GW, Macnab D. 52(4):195-201
- Current supply and future requirements for occupational therapy manpower in British Columbia. MacKinnon JR. 52(5):251-257

### EDUCATION

- A comprehensive field placement evaluation instrument: history, development and implications. Ernest M. 52(1):25-29
- The Supervisor — Student Ratio: 1:1 vs. 1:2. Tiberius R, Gaipman B. 52(4):179-183

- Learning to Touch. Posthuma BW. 52(4):189-193
- Occupational therapy graduate program needs. Part I — The profession's perspective. Madill HM, Wood PA. 52(2):77-80
- Occupational therapy graduate program needs. Part II — therapists' and administrators' perspectives in the three prairie provinces. Wood PA, Madill HM. 52(3):125-131

### EQUIPMENT DESIGN

- A shower collar for persons with tracheostomy. Robinson DJ. 52(3):144-145
- Catheter Leg Bag Holder. Murphy K. 52(1):30

### GERIATRICS

- The use of support services by careproviders of the aged. Hill CJ, Matthews AM. 52(3):138-143
- Pet therapy: initiating a program. McQuillen D. 52(2):73-76
- Sensorimotor Integration Therapy for hip fracture and CVA patients. Babyov D, Omer H, Menczel J. 52(3):133-137

# HOME SERVICES

The use of support services by careproviders of the aged. Hill CJ, Matthews AM. 52(3)138-143  
Community Occupational Therapists and Volunteers: a survey of utilization and satisfaction. McColl M, Malcolm C. 52(2)59-66

# MANUAL DEXTERITY

Box and Block Test of manual dexterity: norms for 6-19 year olds. Mathiowetz V, Federman SM, Wiemer DM. 52(5)241-245

# MENTAL HEALTH

Occupational therapy issues in the treatment of the long-term mentally ill. Krupa T, Hayashi C, Murphy M, Thornton J. 52(3)107-111

# MODELS

The Use of Conceptual Models in Clinical Practice. Krefling L. 52(4)173-178  
Critères de qualité des interventions dans un milieu de soins prolongés établis par une enquête Delphi. Trudel L. 52(3)119-123

# PEDIATRICS

La compréhension du handicap par des enfants de 6 à 11 ans. Ferland F. 52(2)67-71  
The interaction of culture and learning: implications for occupational therapy. Jamieson M. 52(1)5-9  
Difficulties encountered with commercial lifts in the pediatric/adolescent population. Dressler D, Tervo R. 52(5)247-249

# PROFESSIONAL ISSUES

The Demise of Diffidence: an agenda for occupational therapy. Kielhofner G. 52(4)165-171  
Professionalism or unionism: the therapists' dilemma? Brockett M. 52(1)10-15  
The certification examination: how does it affect you? Hawkes B. 52(4)185-187  
Legal liability for occupational therapists. Wright M. 52(1)16-19

# RESEARCH

Single subject research designs in occupational therapy literature. Magill J, Barton L. 52(2)53-58

# SENSORY INTEGRATION

Sensory Integration Therapy for hip fracture and C.V.A. patients. Babyov D, Omer H, Menczel J. 52(3)133-137

# SPLINTING

Distal phalanx passive flexor splint. Barr K, Thorndyke E. 52(2)81-82

# STUDENTS, OCCUPATIONAL THERAPY

The Supervisor - Student Ratio: 1:1vs.1:2 Tiberius R, Gaipman B. 52(4)179-183  
A comprehensive field placement evaluation instrument: history, development and implications. Ernest M. 52(1)25-29  
Learning to Touch. Posthuma BW. 52(4)189-193

# SUPERVISORY SKILLS

The supervisory skills of rehabilitation managers. Stan L.J. 52(3)113-117

# VOCATIONAL REHABILITATION

Work evaluation: choosing a commercial system. Krefling L. 52(1)20-24

# Medieval!

Chairs are designed for the normal human frame.

For an individual with postural deformity, a standard seat means constant, often acute, discomfort. Improved padding is only temporarily ameliorative. Under the supervision of a therapist, Canadian Posture and Seating Centre modifies standard wheelchairs using versatile, modular supports or by moulding the seat and back to fit the patient. For more information, just phone or write.

15 Howard Place, Box 8158, Kitchener, Ontario N2K 2B6

# LETTERS TO THE EDITOR

The Canadian Journal of Occupational Therapy welcomes letters from readers who wish to comment on previously published articles or on any topic related to occupational therapy philosophy, practice, theory, research or education. We will accept legible handwritten letters, but prefer to receive them typed and double spaced.

# LETTRES AU RÉDACTEUR

La Revue Canadienne d'Ergothérapie reçoit avec plaisir les commentaires de ses lecteurs au sujet d'articles déjà publiés ou de toute manière relative à l'ergothérapie, sa théorie, sa recherche ou dans son éducation. Les lettres lisibles écrites à la main sont acceptées, mais nous demandons à nos lecteurs de bien vouloir nous les envoyer de préférence tapées à la machine et à double espace entre les lignes.
